

PUROILSORB 

for **GREEN PUBLIC PROCUREMENT**

Remade in Italy certification

OUR NEW CERTIFIED PRODUCTION
SCVS ECORK DIVISION

In pursuing new innovation goals SCVS ECORK Division is glad to introduce you a new family of absorbent products, according the latest UE and national standards.

In the heart of SCVS R&D sector there are the Circular Economy Guidelines, aimed at closing down the waste cycle and at the maximum recovery of second raw materials.

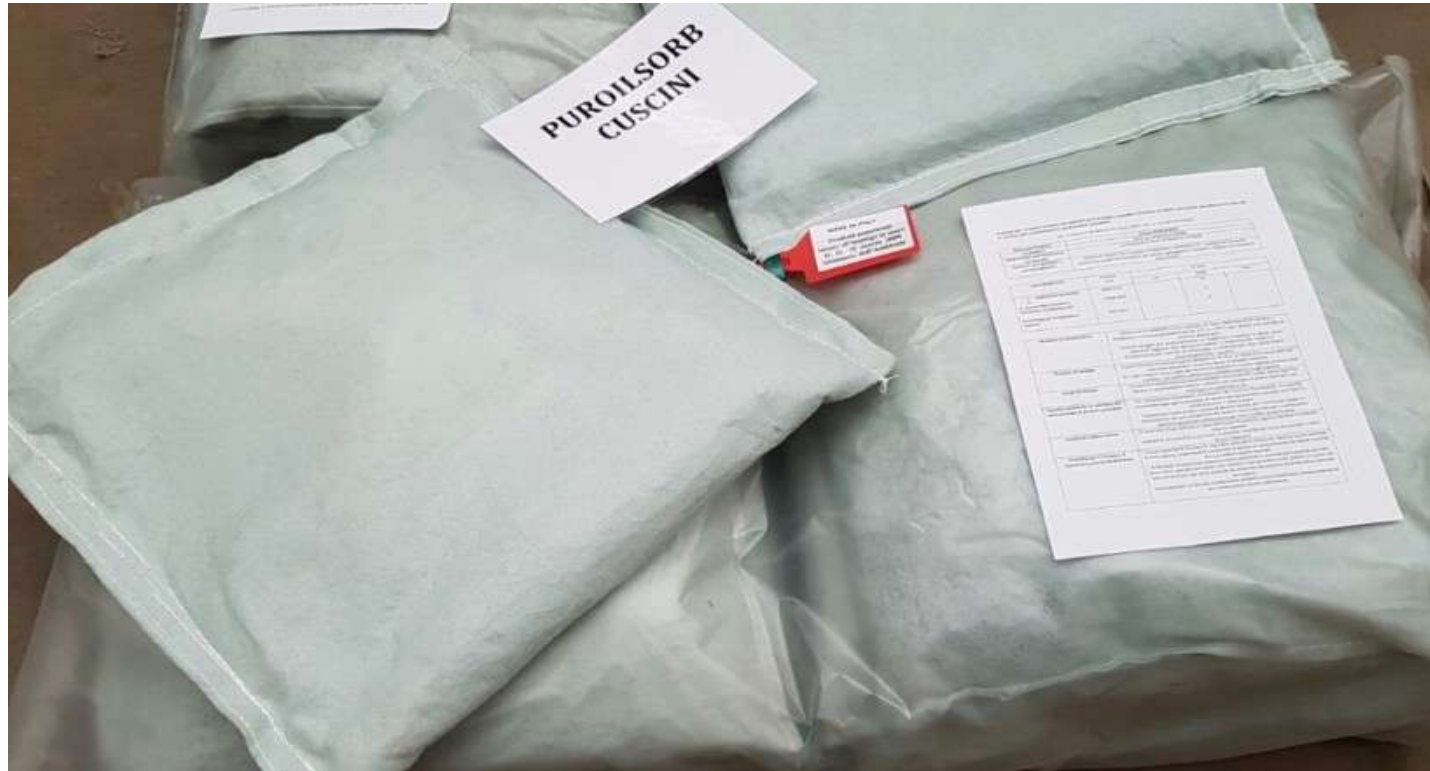

New five products from Ecork ITALY, which have already obtained the "Remade in Italy" certification by Bureau Veritas, recognized by the Italian Ministry of the Environment and as MEC (Minimum Environmental Criteria) for Green Public Procurement.

The new line contains from 35% to 100% recycled material from waste processing and the use of **Puroilsorb** production allows significant savings in energy and lower production of Greenhouse Gas (CO₂).

An ecofriendly family for

- Public Administrations and Publicly-owned Companies, which, according to UE and National regulations, are required to purchase Green Products
- companies taking parts in Public tenders and/or environmentally certified ISO 14000 an/or EMAS: for the above-mentioned norms, higher scores are assigned to the use of Green and certified products.

FIVE NEW CERTIFIED PRODUCTS FROM 2017, NAMED "PUROILSORB", SIDE BY SIDE TO THE CLASSICAL THIRTY YEAR ECORK ITALIAN PRODUCTION FOR AN ECOLOGICAL ABSORPTION IN THE CLEANING UP OF ACCIDENTAL SPILLS: solid surface line, fresh water line and salt water line.

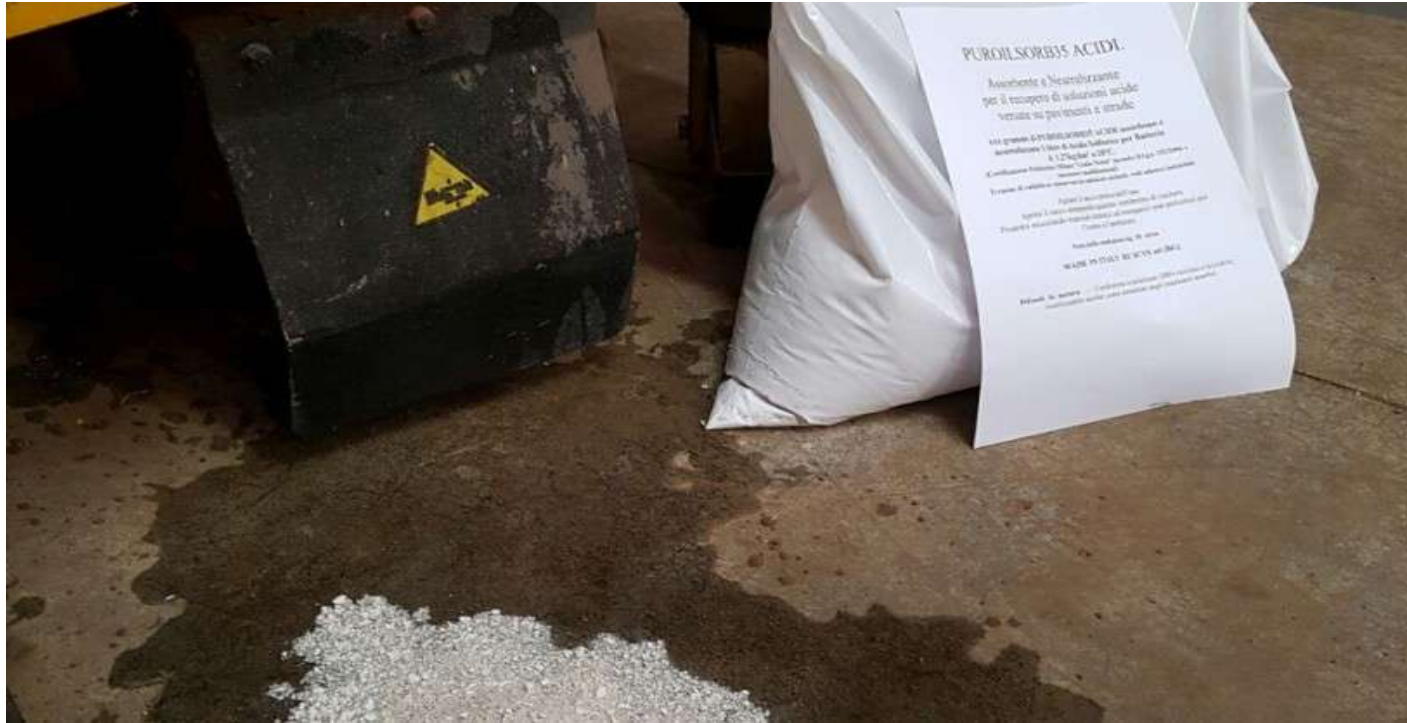

PUROILSORB "CUSCINI"

Polyurethane based absorbent pads for the recovery of oils and hydrocarbons poured into the sea, lakes, rivers and other surface waters. Pads are crafted in various sizes and are suitable for use in the sea according to Italian Ministry of the Environment.

PUROILSORB "BARRIER"

Polyurethane absorbing barriers for the absorption of oily substances and hydrocarbons spilled into sea, lakes, rivers and other surface waters. PUROILSORB barriers are crafted in various diameters and lengths; they are suitable for use in the sea according to Italian Ministry of the Environment.

PURILSORB35 "ACIDI"

Absorbent and Neutralizing Product with 35% Polyurethane and 65% Calcium Carbonate, for the recovery of lead acid accumulators and other types of acids, accidentally spilled on roads, floors and solid surfaces. Conforms to Italian Regulations. With Polyurethane, Carbonate and Calcium Oxide.

PUROILSORB line is handcrafted with a different quantity of recovery polyurethane in according to the goals of the **Circular Economy**.
